The experience he created really set the tone for a day of transformational learning and growth for our people.”

“Bronkar’s enthusiasm and energy keeps his audience engaged and hanging on his every word. In these times of constant change, Bronkar teaches us how to use this as a personal challenge to continuously better ourselves. He reminds us that we are never too old to learn new things in our personal and business lives. His keynote speech and message was dead-on and related to our entire audience of nearly 250 people from various companies and professional backgrounds. Bronkar invested the time to

understand our industry, our company, and business objectives and weave those elements into his presentation. Bronkar's personality and passion for what he does draws you in and inspires you to be the best you can be. If your company is looking for a motivating keynote speaker, Bronkar's your man!"

"We had the honor of having Bronkar as the headlining keynote speaker at our Heroic Public Speaking conference at the Kimmel Center in Philadelphia this year. As someone who teaches keynote speakers how to speak I have seen thousands of high-level presentations and Bronkar stands out as one of my favorites. He brought the perfect blend of content, entertainment and audience interaction to our conference. Our people left feeling inspired and motivated to take action in their own jobs and lives."

"This is the first time we have laughed like this in over 10 years. Bronkar set the tone for us to truly come together as an organization of 1200 attendees and enjoy each other and really have fun together. He beautifully integrated his music and instruments into the presentation. He taught us how to be ignited by possibility as opposed to being paralyzed by perfection or failure."
